Career Objective: As a passionate Front-End Web Developer, my objective is to contribute to dynamic web projects by creating applications that are both user-friendly and efficient. I am determined to continually expand my knowledge of web development technologies while working with a motivated team.

Technical Skills:

Front-end: HTML, CSS, JavaScript, React, Bootstrap, Tailwind CSS, Daisy UI

Back-end: Node.js, Express, MongoDB

Tools: Github, Google Firebase Authentication, Axios, SweetAlert 2, React Hot Toast

Non-Technical Skills: Problem-solving, Team collaboration, Time management, Effective communication

Projects:

1. Med Diagnostic

[Live Link](#) • [Client Repo](#) • [Server Repo](#)

Med Diagnostic is a comprehensive web platform for online booking, payment, and result retrieval for diagnostic tests.

- This website allows users to book diagnostic tests, pay online, and access results.
- This website uses Stripe for test payments and appointment bookings.
- Admins can manage tests and users, users can update details, book tests, and download results.

Technologies Used: React, Tailwind CSS, Google Firebase, Node.js, Express, MongoDB, Stripe

2. DreamDay Event Manager

[Live Link](#) • [Client Repo](#) • [Server Repo](#)

A platform designed to help users and event management companies plan and manage events efficiently.

- Users can create and manage event details, including guest lists and schedules.
- Event managers can post services with details and prices, and select desired services.
- Dark mode for enhanced user experience during night-time use.

Technologies Used: React, Tailwind CSS, Google Firebase, Node.js, Express, MongoDB

3. JUWoody Art

[Live Link](#) • [Client Repo](#) • [Server Repo](#)

An e-commerce platform for selling jute and woodcraft items, empowering artists to showcase and sell their creation.

- Users can add, manage, and purchase art or crafts with detailed information and pricing.
- Secure authentication with Google Firebase ensures that the user's data is safe.
- Dark mode for enhanced user experience during night-time use.

Technologies Used: React, Tailwind CSS, Google Firebase, Node.js, Express, MongoDB

Education:

Bachelor of Science in Petroleum and Mining Engineering

Jashore University of Science and Technology (2011-2015)

Languages: Bangla (Native), English (Professional), Hindi (Workable)

Certification: Complete Web Development Course With Jhankar Mahub ([Certificate](#))
